ABOUT ME

As a Business Analyst specializing in Google Cloud, I drive sales optimization through insightful analysis and the strategic implementation of AI solutions. My role extends to pre-sales consultancy, where I provide end-to-end client support, from initial needs assessment and solution design to hands-on implementation and facilitating engaging workshops. I also leverage data analysis, reporting, and forecasting to guide business decisions.

KEY COMPETENCIES

- Process Modeling in **BPMN** and **UML Diagram Modeling**
 - **Functional and Non-Functional Requirements gathering and documentation**
 - Leading **CRM implementation projects**, encompassing solution design, documentation creation and maintenance, process mapping, and user instruction development
 - **AI Training and Education**: Designing and delivering training programs on AI tools (Google AI Gemini) and applications for diverse audiences
 - **Google Workspace administration**, including user management, security configuration, and seamless integration of its applications
 - Creating reports using **BI Reporting Tools** (Power BI, Looker Studio) and Google Sheets
 - Using **SQL** for querying, managing, and analyzing databases
 - Native **Polish speaker** with proficiency in **English**
-
